WHY CHOOSE LA-Z-BOY?

The One and Only patented La-Z-Boy comfort selector

La-Z-Boy's handle recline mechanism allows a unique relaxation experience. The backrest and footrest work totally independently to allow a personalised reclining position. A ratchet mechanism allows the user to comfortably slide the seat forward while the backrest moves in harmony with the body, meaning the lumbar region is fully supported at all times. The three-position handle can then be utilised to select a comfortable footrest angle.

The handle itself is branded and is available in a wood or chrome finish, for further personalisation.

DURABLE FRAME CONSTRUCTION

The structural integrity of the La-Z-Boy® frame is something to brag about. Only the best materials are used, especially when it comes to motion furniture. Unlike some recliners, La-Z-Boy® only uses Multi Plywood with a thickness of 18mm for extra durability and flexibility to support the constant movement of the chair. La-Z-Boy® uses superior Radiata Pine, which is extremely strong as the trees are left to grow for 20 years as opposed to 6-8 years for standard Pine.

IMAGE: Hand assembling furniture

HAND-ASSEMBLED MECHANISMS

All La-Z-Boy® recliner mechanisms are hand-assembled. This makes the servicing of the chair, if required, less costly and hassle-free. There is no need to replace the entire mechanism, but rather replace the parts that may be faulty. Just another way you can relax with La-Z-Boy®

LA-Z-BOY TEXTILES

La-Z-Boy products are available in a range of high-quality fabrics and leathers, allowing you to tailor the look of your chairs or suites to suit your home décor and personal taste.

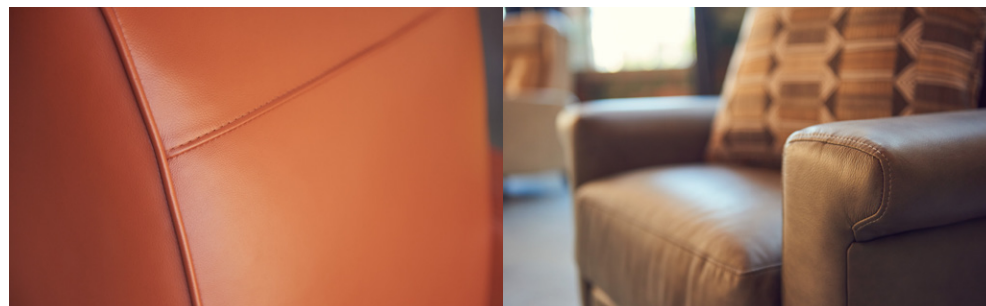

FABRICS

Double-tumbled for complete comfort, La-Z-Boy fabric options will take you to new levels of relaxation. All our fabrics and leathers go through La-Z-Boy's strict testing procedures and are tested for abrasion, seam slippage, durability and stress, often exceeding the usual standards.

LEATHER

With so many looks, it's hard to top leather. From rich and refined to sleek and modern, our leather collection includes a variety of colours and finishes, each with a unique grain and texture. At La-Z-Boy we take great care with selecting our leathers. Ranging from sumptuous and unique grades of leather to extremely durable, corrected grain leathers and those that are soft to the touch and come with a mottled finish.

MOTION SUITES

Our suites are designed and produced with quality and comfort in mind.

Combine two, three and single seater chairs to fill the space you have with the full La-Z-Boy® experience. Adding a complimentary, beautiful, and comfortable suite to any living space has never been easier.

Our reclining suites...

- Have superior reclining actions which allows them to be placed as close as 10cm from the wall, as the seats incline forward and not backwards.
- Allow you to choose between the incliner action of manual or power.
- Have unique seating technology, which means the seats have added memory foam for extra comfort and durability.
- Come in a wide range of genuine leather and fabric types, textures, and colours to suit any decor preference.
- Have a unique 10 Year Limited Warranty for customer peace of mind and confidence.

COLTON
